The services were opened by the sing-ing of the hymu, "All Hall the Power of Jesus' Name." Mr. W. R. Bevan, of Wilmington, Del., offered prayer. short talks on the work and value of the church.

After the formal ceremonies were over refreshments were served.

A concise account of Mr. Woodward's pastoral work gives the following: 850 visits among his parishloners, 200 ser-mons, 12 marriages, 18 funerals, 25 ad-dresses, 4 lectures, 62 received into the church by baptism, and 30 otherwise.

Results of the Storm. Results of the Storm.

The storm seems to have wrought less dumage in Manchester than might have been expected from its violence. Five poles by the Virginia Passenger and Power electric line were blown down in Semmes Avenue and caused considerable delay in the traffic; and another pole was blown down on the Ponticelle road. A farmer was heard to say that most of the corn in Chesterfield county had been cut, but that which had been left standing was now on the ground as a result of the storm.

Statement of the Theft.

Statement of the Theft.

In an interview yesterday Mr. M. J. Cheatham stated that he was positive his store had been robbed of \$40. The theft occurred, he said, while Mrs. Cheatham was in a rear room talking to her daughter, Lottie, who was preparing to take the money to the bank. A well dressed negro had come into the store and called for a pair of kid gloves. As Mrs. Cheatham turned to re-enter the store the negro hastily went out. Her daughter, Lottie, noticed a \$1' bill lying partly out of the box in which the money was placed, and called her mother's attention to the fact. They immediately investigated and discovered that \$40 was missing. The man, whoever he was, must have reached over and grabbed the money, and, not being able to see how much was in the box, took only that which came within his hands. Mr. Cheatham says that the money is sene, and that no mistake had been made in counting it.

The man has not yet been unprehended.

Cotton Report.

The cotton report of the Census Bureau issued to-day shows a total of 329. 414 commercial bales pressed at the ginneries ginned from the growth of 1904, prior to September 1st, against a total of 17.657 commercial bales in the corresponding period of last year. The report shows 7,657 ginneries operated this season prior to September 1st, wille the number operated to the corresponding date in 1903 was 2,175. The report points out that in comparing the statistics of the two years, due allowance must be made for the different conditions of the two seasons. The total commercial bales, which would number but 374.821 if the round bales were counted as half bales, comprise 358.785 square bales, 31,187 round bales and 431 sea island crop bales.

The report will be followed by five althers, showing the quantity of cotton ginned from the growth of 1904, to October 18th, to November 14th, to December 13th, to November 14th, to December 18th, to November 14th and to the coal of the season.

The final report will give the quantity of cotton ginned during the entire season and will include also the quantity of lin-ters obtained by the cotton seed of mills from re-ginning cotton seed of the years' growth.
